Objective

Recent Computer Science graduate seeking an entry-level Software Developer or IT Support role where I can apply strong foundations in programming, databases, and web development. Quick learner with hands-on project and internship experience in full-stack development, eager to contribute to a collaborative engineering team.

Skills

Languages: Python, Java, JavaScript, SQL, HTML, CSS

Frameworks/Libraries: React, Node.js, Express, Flask, Bootstrap

Databases: MySQL, PostgreSQL, MongoDB

Tools & Platforms: Git, GitHub, VS Code, Postman, Linux, AWS (EC2, S3)

Concepts: Data Structures and Algorithms, Object-Oriented Programming, REST APIs, Agile/Scrum

Soft Skills: Communication, Teamwork, Problem-Solving, Adaptability

Technical Experience

ByteBridge Technologies

Jan. 2026 – Apr. 2026

Software Development Intern

Austin, TX

- Built and tested 5-plus REST API endpoints using Node.js and Express, supporting a customer-facing web application
- Fixed 20-plus bugs and wrote unit tests with Jest, improving test coverage on the assigned module by 30 percent
- Collaborated with a team of 6 engineers in a two-week Agile sprint cycle using Jira and GitHub

University IT Help Desk

Aug. 2024 – Dec. 2025

Student IT Support Assistant

University of Texas at Austin

- Resolved 300-plus student and faculty technical support tickets covering hardware, software, and network connectivity issues
- Maintained a 95 percent first-contact resolution rate by troubleshooting common Windows, macOS, and Wi-Fi issues
- Trained 10 new student staff members on ticketing software and standard troubleshooting procedures

Projects

Campus Marketplace – Full-Stack Web App

Personal Project

- Built a full-stack buy/sell platform for students using React, Node.js, Express, and MongoDB
- Implemented user authentication with JWT and image upload with AWS S3; deployed on Render

Education

University of Texas at Austin

Aug. 2022 – May 2026

Bachelor of Science in Computer Science

Austin, TX

- **GPA:** 3.7/4.00
- **Relevant Coursework:** Data Structures and Algorithms, Database Systems, Web Development, Operating Systems, Computer Networks, Software Engineering

Activities

- **ACM Programming Club** – Active member; participated in 3 collegiate coding competitions
- **HackTX Hackathon** – Built a weather-alert web app in a 24-hour team hackathon; placed in top 15 out of 80 teams
- **Peer Tutor**, Introduction to Programming – Tutored 15-plus students in Python fundamentals
