Experience

Cognizant

Jul 2025 – Present

Junior Software Engineer (Full-time)

India

- Developed and maintained TriZetto Engage Solutions and Interoperability platforms, resolving production issues to ensure seamless application delivery
- Utilized Java Full Stack expertise (J2EE, Angular, Microservices) to optimize application functionality, design RESTful APIs, and improve system performance for EngageMember and EngageProvider modules

Vault of Codes (AICTE)

Jan 2024 – Mar 2024

Frontend Developer Intern

Remote

- Achieved 99 percent accuracy in developing responsive websites
- Focused on web development best practices and user experience design; ensured cross-browser compatibility and mobile responsiveness

Projects

Donatr – Donate. Connect. Care.

GitHub

- Built a full-stack web application to simplify and digitalize donating essential items such as books, food, and clothes
- Created a seamless bridge between donors, recipients, and volunteers, enabling traceable and efficient donations within a connected community
- **Technologies:** Angular, Spring Boot, Spring Data JPA, Hibernate, MySQL, Java, Microservices

College Freshers Fest Website

Spark.live

- Led contribution to a key website for the college fresher's fest, facilitating seamless registrations and engagement for 1,500-plus first-year students
- Collaborated with a 3-member team; improved data accuracy via dynamic form validation, achieving 95 percent success in error-free submissions
- **Technologies:** HTML, CSS, Bootstrap, Tailwind CSS, JavaScript

Wikipedia Search Application

GitHub

- Built a custom search tool enabling real-time Wikipedia searches with an intuitive interface and seamless user experience
- Enhanced search efficiency with relevant results and new-tab exploration options
- **Technologies:** HTML, CSS, Bootstrap, JavaScript, JSON, REST APIs

Technical Skills

Programming: Core Java, C, C++, Object-Oriented Programming, Algorithm Optimization

Web Technologies: HTML, CSS, Bootstrap, Tailwind CSS, JavaScript, Angular, Responsive Design, Cross-Browser Compatibility

Frameworks & Libraries: Angular, Spring, Spring Boot, JSP, Servlets, Java Collections, C++ STL

Databases: MySQL, JDBC, DBMS, Optimized SQL Queries

Version Control: Git, GitHub

Core Competencies: Core Java, Spring, Spring Boot, Hibernate, JDBC, JWT, JSON, TypeScript, Angular

Education

Sri Venkateswara College of Engineering

2021 – 2025

B.Tech in Computer Science and Engineering (CSE)

Tirupati, India

- **CGPA:** 9.2/10.0
- **Relevant Coursework:** Software Development, J2EE, Microservices, Data Structures and Algorithms

Certifications

- **NPTEL** – Programming in Java
- **Cisco** – Introduction to Networks
- **NPTEL** – Database Management System
- **Cisco** – Python Essentials 1
