

Your Full Name

Your City, State — (123) 456-7890 — your.email@example.com
linkedin.com/in/yourprofile — github.com/yourusername

Summary

Recent Computer Science graduate with a strong foundation in data structures, algorithms, and full-stack web development. Hands-on experience building projects using Python, Java, and React during academic coursework and internships. Seeking an entry-level Software Engineer role to apply technical skills and contribute to real-world software solutions.

Education

Bachelor of Technology in Computer Science

Aug 2022 – May 2026

Your College/University Name

City, State

CGPA: 8.5/10 (or GPA: 3.6/4.0) — Relevant Coursework: Data Structures & Algorithms, DBMS, Operating Systems, Computer Networks, Object-Oriented Programming

Technical Skills

Languages: Python, Java, C++, JavaScript, SQL

Web Technologies: HTML, CSS, React.js, Node.js, Express.js

Databases: MySQL, MongoDB

Tools/Platforms: Git, GitHub, VS Code, Postman, AWS (basics), Linux

Core Concepts: Data Structures & Algorithms, OOP, DBMS, REST APIs, Agile Methodology

Projects

Online Examination System

Java, Spring Boot, MySQL

- Designed and developed a web application allowing 500+ students to take timed online tests with auto-grading
- Implemented role-based authentication (Admin/Student) using Spring Security
- Optimized database queries, reducing average page load time by 30%

Personal Expense Tracker

Python, Flask, SQLite, React

- Built a full-stack app to track daily expenses with category-wise visualization using Chart.js
- Implemented CRUD REST APIs and JWT-based user authentication

Weather Forecast App

JavaScript, React, OpenWeather API

- Built a responsive web app that fetches and displays real-time weather data for any city
- Deployed on Vercel with a 95+ Lighthouse performance score

Internship Experience

Software Engineering Intern

June 2025 – Aug 2025

Company Name

City, State

- Assisted in developing REST APIs for an internal inventory management tool used by 50+ employees
- Fixed 15+ bugs and wrote unit tests, improving code coverage by 20%
- Collaborated with a team of 5 engineers using Git and Agile/Scrum practices

Certifications

Python for Everybody – University of Michigan (Coursera) — AWS Cloud Practitioner Essentials — DSA Self-Paced – GeeksforGeeks

Achievements & Extracurricular

- Solved 300+ problems on LeetCode/HackerRank/GeeksforGeeks (Competitive Programming)
- Winner, Inter-College Hackathon 2025 – built an AI-powered attendance system in 24 hours
- Active member of the Coding Club; organized a workshop on Git/GitHub for 100+ students
